1     **AN ACT** *to create* 13.48 (39) of the statutes; **relating to:** the creation of a matching  
2     grant program for the physical expansion of existing teaching institutions related to  
3     health care.

*The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:*

JOINT LEGISLATIVE COUNCIL PREFATORY NOTE: This bill, regarding the creation of a matching grant program for the physical expansion of existing teaching institutions related to health care, was prepared for the Joint Legislative Council's Special Committee on Health Care Access.

This bill would allow the building commission in the department of administration to award matching grants to existing health care teaching institutions which are state-accredited, offer courses in health care, request grants only for the expansion of physical facilities, and demonstrate the need for expansion of physical facilities. Before approving any state funding commitment under the bill, the building commission would be required to determine that the qualifying institution has secured at least the matching grant amount in additional funding from nonstate sources for the project. The bill would require the department of health services to work with the qualifying institution to determine the need for expansion of the institution.

4     **SECTION 1.** 13.48 (39) of the statutes is created to read:

5     13.48 (39) **EXPANSION OF TEACHING INSTITUTIONS RELATED TO HEALTH CARE.** (a) The  
6     legislature finds and determines that expanding access to state accredited health care teaching  
7     institutions would greatly benefit state residents by addressing the increasing shortage of  
8     trained health care professionals available to provide care to state residents. It is therefore in  
9     the public interest, and it is the public policy of the state, to assist state accredited health care  
10    teaching institutions with the expansion of these existing institutions.

11           (b) The building commission may authorize up to [insert amount] in general fund  
12    supported borrowing to aid in the expansion of an existing health care teaching institution that

1 is a state accredited institution, offers courses in health care, requests grants only for the  
2 expansion of physical facilities, and demonstrates the need for expansion of physical facilities.  
3 The department of health services shall work with the qualifying institution to determine the  
4 need for expansion of the institution. The state funding commitment shall be in the form of  
5 a grant to the qualifying institution. Before approving any state funding commitment under  
6 this paragraph, the building commission shall determine that the qualifying institution has  
7 secured at least [matching amount or percentage] in additional funding from nonstate sources  
8 for the project.

9 (c) If the building commission authorizes a grant to the qualifying institution under par.  
10 (b) and if, for any reason, the expansion of the qualifying institution constructed with funds  
11 from the grant is not used as a state accredited health care teaching institution, the state shall  
12 retain an ownership interest in the physical facility equal to the amount of the state's grant.

Let's start with

1. \$25 million a year
2. Yes, they put in \$1 million, we put in \$1 million –dollar for dollar match
3. No, ANY institution that provides for teaching institutions, NO, DHS does not need to approve the plan (unless that is a practice they do anyway for these types of expansions in their regulatory oversight), they should have whatever approvals necessary though

Hariah – got your request. Three quick questions:

1. How much bonding do you want to authorize.
2. What kind of a match do you want to provide? Dollar for dollar?
3. Do you want to specify the location of the teaching institution? Is this for any institution or just one institution?  
Does DHS have to approve the expansion plans and the facility?

Let me know and I will get this draft underway.

**PRELIMINARY DRAFT - NOT READY FOR INTRODUCTION**

- 1 **AN ACT ...; relating to:** expansion of accredited health care teaching institution  
2 facilities, granting bonding authority, and making an appropriation.

---

***Analysis by the Legislative Reference Bureau***

This bill authorizes the Building Commission to authorize up to \$25,000,000 in each fiscal year in general fund supported borrowing to make construction grants to accredited health care teaching institutions located in this state for the purpose of expanding their facilities. Before making a grant to an accredited health care teaching institution, the Building Commission must determine that the institution has secured additional funding from nonstate sources in an amount at least equal to the grant.

For further information see the **state** fiscal estimate, which will be printed as an appendix to this bill.

***The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:***

- 3 **SECTION 1.** 13.48 (39i) of the statutes is created to read:  
4 13.48 (39i) ACCREDITED HEALTH CARE TEACHING INSTITUTIONS. (a) In this  
5 subsection:

1 1. "Accredited health care teaching institution" means a <sup>nonstate</sup> health care institution  
2 that offers a program of instruction for health care professionals <sup>and</sup> that is accredited  
3 by a nationally recognized accrediting agency.

4 2. "Health care professional" means a person <sup>who</sup> upon successful completion  
5 of a program of instruction at an accredited health care teaching institution, is  
6 eligible to be licensed, certified, or registered under ch. 441, 448, or 455.

7 (b) The legislature finds and determines that expanding access to accredited  
8 health care teaching institutions would greatly benefit state residents by addressing  
9 the increasing shortage of trained health care professionals available to provide care  
10 to state residents. It is therefore in the public interest, and it is the public policy of  
11 this state, to assist accredited health care teaching institutions with the expansion  
12 of their facilities.

13 (c) 1. Annually, in each fiscal year, but subject to par. (d), the building  
14 commission may authorize up to \$25,000,000 in general fund supported borrowing  
15 to aid in the expansion of facilities of accredited health care teaching institutions  
16 located in this state. The state funding commitment shall be in the form of grants  
17 to the accredited health care teaching institutions. Before approving any state  
18 funding commitment to <sup>an</sup> accredited health care teaching institution, the building  
19 commission shall determine that <sup>the</sup> accredited health care teaching institution has  
20 secured additional funding from nonstate sources for the project in an amount at  
21 least equal to the amount of the grant.

22 2. If the building commission authorizes a grant to an accredited health care  
23 teaching institution under <sup>subd. 1</sup> par. (b) and if, for any reason, the facility that is expanded  
24 with funds from the grant is not used as an accredited health care teaching

1 institution, the state shall retain an ownership interest in the facility equal to the  
2 amount of the state's grant.

3 (d) The building commission may not make a grant to an accredited health care  
4 teaching institution under par. (c) in any fiscal year unless the project is enumerated  
5 in the state building program for that fiscal year. The department of health services  
6 shall assist any accredited health care teaching institution in assessing its expansion  
7 needs.

8 **SECTION 2.** 20.866 (1) (u) <sup>✓</sup> of the statutes is amended to read:

9 20.866 (1) (u) *Principal repayment and interest.* A sum sufficient from moneys  
10 appropriated under sub. (2) (zp) and ss. 20.115 (2) (d) and (7) (b) and (s), 20.190 (1)

Rep. Thiesfeldt:

Per your request, this draft authorizes the Building Commission to make grants of up to \$25,000,000 in each fiscal year in general fund supported borrowing to assist accredited health care teaching institutions in expanding their facilities. Please note that I have included as a requirement for this funding that each expansion project must be enumerated in the state building program for the fiscal year in which the grant is awarded. The state building program is generally included in the biennial budget act. Also, please review the details of proposed s. 13.48 (39i) to make sure that the provision carries out your intent. If you are satisfied with the program and its details, please advise and I will prepare the draft for introduction or make any requested changes.

**Subject:** RE: Questions

1. Generally, statutory text on private building projects and state bonding is very lean. You can make the conditions for receipt of funds as onerous or as easy to comply with as you wish. Look at s. 13.48 (25) to (44) for examples of programs that authorize bonding for many private projects. The key things to have are dollar amounts, make sure it is a public purpose, and be clear about who is eligible to receive funds.
2. All of the funding is borrowed money, supported by tax dollars. There is no need to set money aside since it is all borrowed. The Building Commission will need to approve the contracting of the debt, however.
3. Your funding proposal is a bit different from most in that you set aside a certain amount--\$25 million--each year. Generally, the programs set a total amount of funding for all projects and then the Building Commission allocates the funding annually as projects become ready for construction and as the matching funds are raised.
4. The language that starts at the bottom of page 2 on state retaining ownership is stand boilerplate text found in all programs in which the state gives money for private projects. The one legal requirement that cannot be avoided is that the moneys must be for a public purpose and that if the use of the facility changes the state must have recourse to get its money back; otherwise, the moneys could end up not being used for a public purpose. We can structure this in any way you would like. But the text is the usual text.
5. The projects under this program would not need to be listed as part of the State building program, but still would require building commission approval for the incurring of public debt.

Hope this helps. See you at 9:30, Wednesday, February 20. Please call or write with any questions.

Rick

Subject: Questions

Rick, here are some of Jeremy's initial thoughts. I mainly want to touch on all possible components we need to put in the bill and you will have full direction. Our discussion could also prompt additional research or whatever so we don't miss something. Perhaps you could find another program of this nature and see what components they incorporated.

3 other thoughts on this:

- enactment date - won't do much good to set the money aside before qualifying institutions have had time to prepare to use the money by making building plans and starting to raise the private funds

- Should we limit the length of the program to a certain length of time? 10 yrs?

- pg. 2 #2 at the bottom of the page - how long does this provision count? If a college eliminates its nursing program 25 yrs later, does the state own a portion of the building? Or would the cost eventually be decreased due to inflation (\$10 million today will have different value than the same amount in 20 yrs)? Or should we index down the cost for x # of yrs until it reaches 0?

I've read this over and not sure about the having it listed out in the state's building program. I think it may cause too much red tape, the commission should get applications at a certain deadline for the following year and be able to say "yes." However, since we are bonding for the grant match we might not have a good alternative. We'll have to talk with Rick.

1 AN ACT *to amend* 20.866 (1) (u); and *to create* 13.48 (39i), 20.866 (2) (zbL) and  
2 20.867 (3) (bL) of the statutes; **relating to:** expansion of accredited health care  
3 teaching institution facilities, granting bonding authority, and making an  
4 appropriation.

***Analysis by the Legislative Reference Bureau***

This bill authorizes the Building Commission to authorize up to \$25,000,000 in each fiscal year in general fund supported borrowing to make construction grants to accredited health care teaching institutions located in this state for the purpose of expanding their facilities. Before making a grant to an accredited health care teaching institution, the Building Commission must determine that the institution has secured additional funding from nonstate sources in an amount at least equal to the grant.

For further information see the **state** fiscal estimate, which will be printed as an appendix to this bill.

***The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:***

5 SECTION 1. 13.48 (39i) of the statutes is created to read:

Insert Analysis

1           13.48 (39i) ACCREDITED HEALTH CARE TEACHING INSTITUTIONS. (a) In this  
2 subsection:

3           1. "Accredited health care teaching institution" means a nonstate health care  
4 institution that offers a program of instruction for health care professionals and that  
5 is accredited by a nationally recognized accrediting agency.

6           2. "Health care professional" means a person who, upon successful completion  
7 of a program of instruction at an accredited health care teaching institution, is  
8 eligible to be licensed, certified, or registered under ch. 441, 448, or 455.

9           (b) The legislature finds and determines that expanding access to accredited  
10 health care teaching institutions would greatly benefit state residents by addressing  
11 the increasing shortage of trained health care professionals available to provide care  
12 to state residents. It is therefore in the public interest, and it is the public policy of  
13 this state, to assist accredited health care teaching institutions with the expansion  
14 of their facilities.

15           (c) 1. ~~Annually, in each fiscal year, but subject to par. (d), the~~ building  
16 commission may authorize up to ~~\$25,000,000~~ <sup>\$125,000,000</sup> in general fund supported borrowing  
17 to aid in the expansion of facilities of accredited health care teaching institutions  
18 located in this state. The state funding commitment shall be in the form of grants  
19 to the accredited health care teaching institutions. Before approving any state  
20 funding commitment to an accredited health care teaching institution, the building  
21 commission shall determine that the accredited health care teaching institution has  
22 secured additional funding from nonstate sources for the project in an amount at  
23 least equal to the amount of the grant.

24           2. If the building commission authorizes a grant to an accredited health care  
25 teaching institution under subd. 1. and if, for any reason, the facility that is expanded

Beginning on July 1,  
2014, the

1 with funds from the grant is not used as an accredited health care teaching  
2 institution, the state shall retain an ownership interest in the facility equal to the  
3 amount of the state's grant.

4 (d) The building commission may not make a grant to an accredited health care  
5 teaching institution under par. (c) in any fiscal year unless the project is enumerated  
6 in the state building program for that fiscal year. The department of health services  
7 shall assist any accredited health care teaching institution in assessing its expansion  
8 needs.

9 **SECTION 2.** 20.866 (1) (u) of the statutes is amended to read:

10 20.866 (1) (u) *Principal repayment and interest.* A sum sufficient from moneys  
11 appropriated under sub. (2) (zp) and ss. 20.115 (2) (d) and (7) (b) and (s), 20.190 (1)  
12 (c), (d), (i), and (j), 20.225 (1) (c) and (i), 20.245 (1) (e) and (j), 20.250 (1) (c) and (e),
